**STOP WORRYING ABOUT TECHNOLOGY  
AND START FOCUSING ON YOUR BUSINESS**

# LIGHTCREST MANAGED SERVICES

## STOP WORRYING ABOUT TECHNOLOGY AND START FOCUSING ON YOUR BUSINESS

### OUR SERVICES

Lightcrest utilizes **expertise** derived from over a decade of building solutions for industry leading organizations such as Microsoft and MySpace to offer vertically integrated technology solutions at a fraction of the cost of an in-house solution.

We furnish you with technical leverage by providing hands-on experience with unerring dependability at a price point that is guaranteed to widen your margins and lower your total cost of ownership.

**You may have** a distributed web application, rich media (i.e. streaming videos), or a transactional system that requires no-compromise security hardening. Lightcrest guarantees the availability, scalability, and ongoing security of your sensitive data so that you can rest assured that your technical investments are continually protected and driving revenue. Whatever your technology needs are, Lightcrest can provide you with an edge over your competition and increase your bottom line.

Even if you aren't one of the many companies whose needs have slipped through the cracks of a major "managed hosting" vendor, Lightcrest is determined to provide you with a superior level of attention and support at a price point that won't break your budget.

### HERE'S HOW

Lightcrest has **successfully** delivered high-volume, horizontally-scalable applications, networks, and computing systems for Fortune 500 enterprises such as News Corporation, Best Buy, Microsoft, AT&T, and Hearst Corporation.

Lightcrest can **impart their expertise** to you at a fraction of the cost normally required by an in-house operation with full time staff. From CTO-level technical management to senior systems administrators, network architects, and software engineers, Lightcrest provides the full array of technology services required to fashion a solution for virtually any enterprise, web startup, or brick-and-mortar business

Lightcrest **operates** in premiere datacenter facilities around the world and is partnered with Tier 1 IP carriers as well as technology vendors such as RedHat and Microsoft. The cost benefits of these established relationships are passed directly on to you.

Lightcrest **also offers** expertise in software architecture, data modeling, and high-volume infrastructure. If your core competency isn't technology, chances are you'll encounter substantial challenges locating and retaining technical expertise while maintaining your budget. Our role is to deliver a solution that makes sense for your business.

## LIGHTCREST PACKAGES

Lightcrest utilizes expertise derived from over a decade of building solutions for industry leading organizations such as Microsoft and MySpace to offer vertically integrated technology solutions at a fraction of the cost of an in-house solution. We furnish you with technical leverage by providing hands-on experience with unerring dependability at a price point that is guaranteed to widen your margins and lower your total cost of ownership.

- Dual-Core 2.0GHz Athlon
- 4GB (DDR3) Memory
- 2x250GB RAID 15k SATA Storage
- Gigabit Ethernet
- 2TB Bandwidth Data Transfer

### Lightcrest Venture Package™

**\$399**

The Lightcrest Venture Package is perfect for startups and small to medium-sized businesses that need to horizontally scale out a web cluster, e-commerce application, or lightweight database. Ask us about management of popular packages like Joomla, Drupal, and Django at no additional cost. Remember, we also build software; this package pricing includes your custom application management.

- Dual-Core 2.6GHz Athlon
- 8GB (DDR3) Memory
- 3x250GB RAID 15k SATA Storage
- Gigabit Ethernet
- 2TB Bandwidth Data Transfer

### Lightcrest Evolution Package™

**\$499**

The Lightcrest Evolution Package is designed to provide premium capacity and performance for applications that require high transactions, high concurrency, and extremely low latency. Ask us about memcache, squid, and high-volume apache and httpd installations. Remember, we manage these packages as part of the deal.

- Dual-Core 2.6GHz Xeon
- 12GB (DDR3) Memory
- 2x500GB RAID 15k SATA Storage
- Dual Gigabit Ethernet
- 2TB Bandwidth Data Transfer

### Lightcrest Enterprise Package™

**\$599**

The Lightcrest Enterprise Package is designed to provide superior performance and capacity built for burgeoning businesses, allowing customers who want best-of-breed hardware coupled with their mission critical applications.

- Quad-Core 3.0GHz Xeon
- 16GB (DDR3) Memory
- 1TB+ RAID 5 or 10 Storage
- Dual Gigabit Ethernet
- 2TB Bandwidth Data Transfer

### Lightcrest Ultimate Package™

**\$699+**

The Lightcrest Enterprise Package is designed for the most demanding of applications, and allows customers unlimited access to software engineers, system monitoring tools, database experts, and scalability professionals. These solutions are tailored specifically to your application to maximize throughput, increase scalability, and lower costs.

 **Looking for something else?** We'd love to have a discussion with you to construct a package which will address your specific needs.

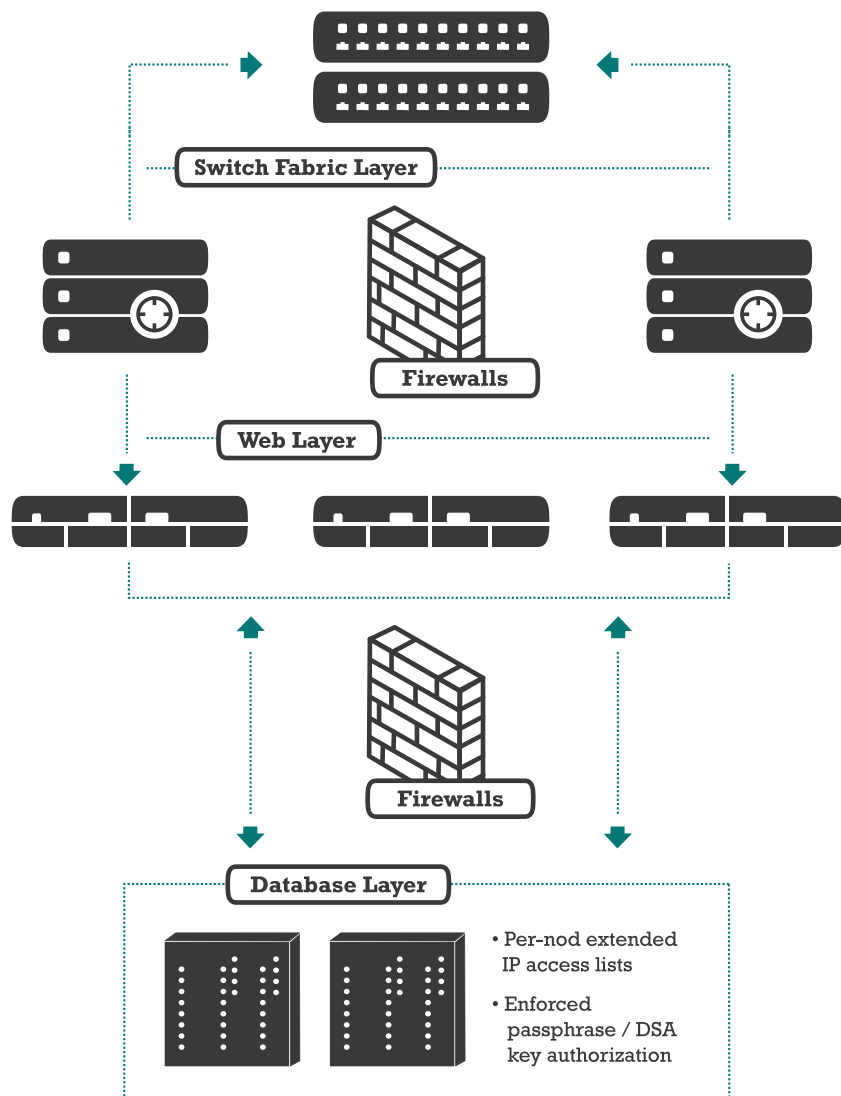

## MANAGED HOSTING

Lightcrest's team of engineers are experts in Lucene, FAST, Oracle, MySQL, and PGSQL. We can deploy these packages to you as part of your managed hosting relationship.

Ask us about :

- Video Streaming
- Redundant Storage
- Security Hardening
- Application Monitoring
- Incremental Backups
